WHAT IS MAS FREEDOM'S VOTING IS POWER 'VIP' CAMPAIGN?

WASHINGTON, D.C. (MASNET) Oct. 22, 2008 – MAS Freedom's Voting is Power campaign, originally launched August 12, 2003, is a voter registration and civic participation education program with a focus on engaging the Muslim community in the political process. One of the most important components of empowerment is political empowerment.

At MAS Freedom ([MASF](#)), the civic and human rights advocacy entity of the Muslim American Society ([MAS](#)), we believe that our ability to empower our community through political involvement stems from understanding our obligations as Muslims.

Participating actively in the process of voting is a first step toward that political empowerment so vital to our ultimate goal of raising and developing exemplary citizens who will contribute to the greatness of our country, and whose convictions and dedication will illuminate the brilliance and beauty of the great message of Islam.

By making sure our votes are counted, we will be empowered with the ability to construct an effective political strategy and develop a relevant political discourse - making our community not only visible and active, but able and productive as well.
